

OSKAR S.

Frontend Engineer

hello@plus8soft.com

SUMMARY

Frontend Engineer with over 5 years of experience in developing high-performance applications. Proficient in JavaScript, TypeScript, and modern frameworks like React.js and Vue.js. Skilled in optimizing deployment processes and enhancing user experience through innovative solutions. Experienced in leading teams and mentoring junior developers while maintaining high coding standards.

TECH SKILLS

Languages & Frameworks: JavaScript, TypeScript, C++, React.js, Next.js, Vue.js, Nuxt.js, React Native, Redux, MobX, Zustand, TanStack, Tailwind

Backend & Architecture: Node.js, Express, Nest.js, SQL, PostgreSQL, MongoDB, Prisma, Firebase, Supabase

Cloud & DevOps: Docker, Docker Compose, Github Actions, Gitlab Pipelines, Nginx

Testing Tools: Cypress, Playwright, Jest

Concepts: Algorithms & DS, CI/CD, SPA/SSR, PWA, RESTful APIs, Agile, Scrum, Kanban, Git

WORK EXPERIENCE / PROJECTS

2025 - Present · SaaS Application Architecture

Designed and developed a comprehensive architecture for a SaaS application.

- Enhanced state management efficiency in complex React ecosystems.
- Customized Google Maps and optimized paid client markers for better performance.
- Reviewed team code to maintain quality standards.
- Streamlined deployments with Docker and Gitlab pipelines for CI/CD.
- Supported legacy projects and refactored codebases.

Skills: JavaScript, TypeScript, React.js, Docker, Gitlab, Google Maps API

2023 - 2024 · Unified Component Libraries

Designed unified component libraries to ensure visual consistency across applications.

- Defined scalable solutions under evolving priorities.
- Drove sprint execution with a strong focus on delivery outcomes.
- Mentored developers while fostering accountability and ownership culture.

Skills: React.js, TypeScript, Agile, Scrum

2021 - 2023 · Frontend Development Management

Led the frontend development department managing projects and collaborating in Agile teams.

- Optimized workload distribution to enhance team efficiency.
- Balanced feature velocity with code quality and architectural integrity.

Skills: JavaScript, React.js, Agile, Scrum

EDUCATION

Associate degree in Computer Science

English
